Weekly Status Report 04 (Week 07)

Blekinge Institute of Technology

PA1456

17/02/2023

by Oliver Bölin

olbo20@student.bth.se

- Report relates to Week (Number):**7**
- How many hours have you worked on the project this week? **10**
- List down the project-related activities carried out in the week this week, along with the hour(s) spent on each activity. **API research, bug fixing, and adding a feature for PDF format for the history**
- What project-related activities have you planned for next week? **Fixing the API, adding more radio buttons and fixing the WIP / CLOSED buttons**
- Did you face any impediments/challenges that have affected your project-related work? Please list them **No**
- What is your action plan to overcome impediments/challenges? **Now I just need to make time to code more**
- What project-related activities did you plan but could not carry out? **Nothing this week!**
- How was the review session? **Good! But I forgot to make the C4 diagram (it has been made now)**
- What was the feedback of the client about your work? **Very good! Client likes GPipe, not much feedback**
- What are your takeaways from the review session about your work? **He didn't say anything to fix so I will just continue as usual**
- What can you do better in the next sprint? Take a look at Sprint 1 in retrospective and list your response under these headings:
 - Good (If you could redo the same sprint again, you would do these things the same way)
 - I got a lot of work done before the sprint. And the GUI looks awesome.
 - **Could have done better (If you could redo the same sprint again, you would do these things differently)**
 - **I could code more, but It has been an intense sprint with other school work**
 - Improvements (Concrete ideas about how you (planning, effort estimation, wor etc.) could improve in the future)
 - Plan my days better so I always get some hours in on coding or research
