Making GUI: 10, fixing bugs: 2, fixing backend: 3

- What project-related activities have you planned for next week?

Fixing API, fixing some search functions and sorting data, making a visualisation (graphs)

- Did you face any impediments/challenges that have affected your project-related work? Please list them

Yes, I had some minor bugs with the AI, also complications with making a scrollbar for a tabview, which apparently was not a feature released yet. I also faced complications when I need a longer history of code reviews

- What is your action plan to overcome impediments/challenges?

Code more, and find more information.

- **What project-related activities did you plan but could not carry out?**

Nothing right now
